Little Learners, 2011-2012

A Workshop Series for 1- to 4-year-olds

"Little Learners" is a workshop series designed especially for 1- to 4-year-olds. Each series is five weeks long and introduces learners to science topics through exploratory play, songs, books, and activities. **Workshops are one hour long and designed for interaction between children and caregivers.**

Workshops motivate learners to explore the world of science through hands-on experiments. Caregivers will be able to take photos and engage in progression of language, gross and fine motor skills, problem solving, and social/emotional development.

Pre-registration is required, so **call 517-485-8116, x 32, to sign up**. Space is limited to 12 children per session. Chaperones are free, but required.

Cost per five-week series: $50/member child; $75/not-yet-a-member child

Sibling care (reservations required): $8/sibling
